

## Modular Integrated Compressor & Generator

Providing Power & Compressed Air for Offshore Grouting Operations

## System Specifications:

### Dimensions:

Container: (L) 6.058 (W) 2.438 (H) 6.058m 20' ISO Offshore Container

### Integral:

- 150Kva Perkins Drive Traqne Generator
- 350 CFM Sullair Compressor at 125 psig L/S at 8.5 Bar
- IP65 Lighting Power Points
- 4 x 16" Ventilation Fans

### External:

- Exhaust Suppressed Spark Arrestors
