

Turtable Formwork Deployment System

The Formshore Turtable is designed with folding interchangeable wings to deploy grout forms with base sections of 10m².

Rotating 360 degrees, aligns the formwork in the precise horizontal plane for ROV or diver deployment

Dimensions:

Horizontal Length:	1 – 2.2m
Width:	1.2m
Extendable Height:	1.2 – 2.8m
Load Capacity:	1,000 kg
SWL:	2,000 kg
Construction:	Mild Steel
Finish:	Hot Dip Galvanised
